Dear Dr. McAllister:

I write on behalf of the FASEB and the committee organizing the meeting on "Development and Repair - Cellular and Molecular Aspects" to express our appreciation for your generous support. This support will, of course, be acknowledged in all of the literature associated with the meeting and will be posted and announced to the participants at the meeting.

As per your request, your contribution will not be used to reimburse expenses incurred by participants from the industrial sector and one registration slot will be held for your representative.

Sincerely,

Michael D Gershon
